

## **Buckinghamshire EHE FOI Spend Response January 2013**

The Elective Home Education (EHE) budget for the academic year 2011-12 was £70,000. 95% of this was allocated to staff salaries, while the remaining covered costs such as IT, travel, training, telephones and printing. There were no direct costs for educational provision for electively home educated children and young people without statements, however the duties of the EHE consultant and Business Support Officer encompass the provision of services for Electively Home Educated children and young people.
