Dear Juliette

I understand that the Guidance on Children Missing Education is currently being reviewed.

I imagine that various links will be updated as part of this review process and I have a request to make about updating the link for the Elective Home Education Guidelines.

The link for the Elective Home Education Guidelines on page 9 points to the discontinued education.gov.uk website.

Moreover, on page 4 it says "The LA should consult the parents of the child when establishing whether the child is receiving suitable education" but in the footnote there is currently no url.

It would be extremely helpful if the footnote on page 4 could link to the new [GOV.UK](http://gov.uk) web page <https://www.gov.uk/government/publications/elective-home-education>

Kind regards
