

Lambeth EHE Spend FOI Response February 2013

The amount spent on home education services cannot be broken down as it is included in the work of the Inclusion Team within Alternative Education. This team consists of two Inclusion Officers, an officer for Children Missing Education, AEP support officer, administrative support and a manager. Elective home education is integral to their work and cannot be separated out. With regards to the spend on provision of services for home educated children and young people, the Local Authority does not make further contribution over and above the support from the Inclusion Team.
