

Wirral SEN EHE FOI Response January 2013

My response is as follows, however in accordance with DfE policy, numbers of 5 or fewer have been suppressed to reduce the risk of individuals being identified:

1a. 1,613

1b-n. Suppressed.

2. Home Educated children may access Education Psychology. Access to Health Authority services would be a matter for those services. However, our officers would signpost the family to appropriate services if additional needs were identified.

3. We do not have a specific policy and deal with the very few instances on an individual basis.

4. Suppressed.
